Suburban Improvements.
Some very decided suburban improvements are in progress and will be completed north, south and west of the city, all designed to meet the demand for the city's expansion, and to add desirable suburban residential sections to the city. On the Chesterfield side of the river very handsome improvements are being made by the Colonial Heights Company, which give promise of a beautiful village with all necessary conveniences.

On the south, in Prince George, the Walnut Hill Corporation is developing 300 acres of land into building lots, streets, boulevards, roads, etc., and is building a viaduct to directly connect the property with the city. On the west, Senator Charles T. Laster is developing the Kenilworth and McGill farms, of which he is the owner, to supply the demand for country homes and small farms close to the city, and expending a large sum in the improvements. Petersburg is bound to develop these suburban improvements will attract many buyers.

Personal and Otherwise.
The Saturday afternoon receptions and dances at the Riverside Club will not be suspended during Lent. The reception committee to-morrow afternoon will be Mesdames Mortimer Williams, Cleveland, Virginia, E. B. Whitmore, F. C. Spencer, Misses Mary Quick, Maud Hobbs, Ethel Plicher, Lella McCandlish, Josie McIlwaine and Mary Kinsey.

The Council Committee on Gas and Light met last night to consider the question of establishing a gas plant, and incidentally the price of gas to consumers. No definite action was taken, the committee deciding to await further information from the gas company as to the reduction of prices before making its report. Another meeting will be held on March 15.

The Hastings Court was engaged again this afternoon in hearing applications for reduction of assessments on real estate, and disposed of a number of cases. Very slight reductions on buildings have been made in some instances.

Mr. Cameron has appointed Sidney B. Gill, who is a grocery merchant, as one of Petersburg's delegates to the Southern Commercial Congress.

Information has been received of the death at his home in Baltimore of F. G. Magruder, who for many years was a resident of Petersburg, and well known and esteemed here.

The Richmond and Petersburg electric cars will begin in a day or two to run into the city station here.

There were fifty-nine births in Petersburg in February—Whites 29, colored 30. Females were in the majority.

Efforts are still being made to induce the Virginia Railway and Power Company to extend its line into West High Street, not only as a matter of convenience to the people of that section, but to the great crowd of downtown people who will attend the baseball games nearby.

Carper stepped directly in the path of the engine, and was instantly killed. The body was frightfully mangled.

LAD ATE PILLS FOR CANDY.
Medicine Distributed by Negro Boy Almost Fatal to White Youth.
[Special to The Times-Dispatch.]
Winnington, N. C., March 3.—As the result of a medicine distribution on the streets, the three-year-old son of Mr. and Mrs. H. B. Goodnight, of 408 North Front Street, has just recovered from two days' illness that came near ending in death. The lad was given a handful of sugar-coated pills on the street by a colored boy who was distributing samples. He ate them and was taken violently ill. Later it was found out what was the matter, and for hours he was on the verge of death. There is a law against such distribution of patent medicines in this city, but often it is most flagrantly violated. Efforts to locate the negro who handled the pills have been made by the police, but without success.

GOVERNOR GETS SALARY INCREASE

Doughton Amendment, Carrying \$5,000, Is Accepted by House.

ANTI-TRUST BILL PASSES

Rough Sailing Indicated for Hobgood Primary Measure.

[Special to The Times-Dispatch.]
Raleigh, N. C., March 3.—The House spent much of the afternoon session on the Senate bill to raise the salary of the Governor from \$4,000 to \$6,000, adopting finally, by a vote of 48 to 43, an amendment by Doughton to increase to \$5,000. As amended the bill passed readings almost without opposition, and was sent to the Senate for concurrence.

In opposition to the \$6,000 increase, Connor and others made the point that the extras in the way of traveling expenses and allowances for up-keep of mansion and other purposes made the present salary equivalent to \$5,000 or more. Speaker Doughton explained that \$1,000 increase would make the Governor's salary equivalent to upwards of \$9,000.

The House passed the Burlington anti-trust bill this afternoon, with an amendment by Representative Doughton, that cut out the provision that the solicitor and other prosecutors of trusts shall have 10 per cent of the fines imposed when convictions are secured, the amendment providing that the judge can make an allowance to the solicitor.

Turlington explained his bill as conforming to the recommendations of the Governor as to providing a fund for the expense of prosecutions through the Attorney-General and solicitors, and adding subsections prohibiting the use of coupons, rebates, and prizes in the sale of merchandise, and another making it a misdemeanor to solicit trade by means of false representations, as to connection with other business enterprises, and as to ownership of the business. The bill passed, 55 to 5, and was sent to the Senate.

The House voted, 58 to 31, to table a motion to make the Senate Hobgood primary bill a special order for Friday night, indicating rough sailing for the measure in the House.

The bill to have the sale of the

Atlantic and Yadkin Railroad to the Atlantic Coast Line, and its division between the Coast Line and Southern investigated by the Corporation Commission, passed under suspended rules and was sent to the House.

The House passed the bill carrying appointment of members of county boards of education.

The House received from the Committee on Appropriations an unfavorable report for the bill to establish the Western Carolina Teachers' Training School. The vote of the committee was 7 to 6. The bill, which was introduced by Senator Martin, had passed the Senate.

The bill to create a State Fish Commission to control the commercial fishing interests, that was proposed by the legislative commission, after two years' extensive study of the situation under direction of the 1909 Legislature, and which had passed the House, was defeated in the Senate to-day, 41 to 1, after it had been amended to exempt Carteret, Currituck, Onslow and Hyde counties.

The Senate spent the remainder of the morning session on the revenue bill, passing it on final reading. The section as to revolver dealers was amended to make the tax \$5 instead of \$100, also the amendment to section 53 by the House allowing counties, cities and towns to impose additional license taxes on telephone companies was stricken out.

Secretary Joseph E. Pogue, of the North Carolina State Fair, expresses his appreciation of the completion of what he considers a most advantageous Carolina circuit of fairs, now that the State Fair is no longer allied with the Virginia circuit. The State Fair at Raleigh, under the new schedule and alliance, retains its old lucky dates—October 16 to 21. The fairs of the Carolina circuit, in their order, are: Wilkesboro, Winston-Salem, Greensboro, Raleigh, Charlotte, Columbia and August 15. Reynolds, of Winston-Salem, is president of the Carolina circuit.

The Universal Machine Company, of Charlotte, has been chartered with \$100,000 capital by J. A. Cole and E. W. Cole, the latter of Richmond, and others, as incorporators. Other charters are to the Goldstein Company, Dunn, capital, \$20,000, by Charles Goldstein and others, and the Ward Lumber Company, of Catesville, capital, \$10,000, by B. H. Ward and others.

The city of Raleigh wins the damage suit pending in the Superior Court here, in which Lucy Johnson demanded \$500 damages for injuries to her car, falling into an excavation in the street on South Bloodworth Street.

The Board of Supervisors of Hanover have, at the request of the Audubon Society of Ashland, decided to declare a closed season for robins, this being within their province.

WILLIAM AND MARY BOARD OF VISITORS IN SESSION
Contract for New Light and Heating Plant Awarded—Governor to Make Address.

[Special to The Times-Dispatch.]
Williamsburg, Va., March 3.—The board of visitors of William and Mary College was in session here yesterday, with the following members in attendance: R. M. Hughes, of Norfolk; Senator J. S. Stubbins, of Gloucester; vice-rector, M. H. Barnes, of New Kent; W. C. L. Talliferro, of Hampton; Dr. James H. Barnes, of Nansmond; W. D. Smith, William M. Ellis and O. P. Chisholm.

The board awarded the contract for the new heating and lighting system. The cost of the new light and heating plant will be about \$25,000, when the items of consulting engineer's fees and some extra necessary work on grounds and the wiring system are added.

Work will begin as soon as possible, in order to have the plant completed before the opening of the session next fall.

The board also decided to make a radical change as to the boarding system for next session. For satisfactory reasons the board decided that the boarding house be leased to some person, and the board decided that the lease be left to the executive committee, which is to report its action to the board at its meeting in June. It is understood this course was adopted by the board because the boarding department has been conducted at a heavy loss the past year, and it is currently reported ran behind \$4,000. If the order of the board is carried out, and a suitable person be found to lease the boarding house, it is thought the institution will be benefited financially.

Governor William H. Mann has announced that he will deliver an address in the chapel at William and Mary on the night of April 11. Governor Mann has not announced his subject. The faculty extended an invitation to the Governor some time ago to address the students, and his coming is looked forward to with pleasure by the young men and the public generally.

President Lyon G. Tyler, of William and Mary, is naturally much gratified over the passage by the House of Representatives of a bill providing for the erection of a monument over the grave of his father, John Tyler, former President of the United States.
